Attempt gain possession officer's weapon:	No		

Was the deceased under restraint in the time leading up to the death or the events causing the death?

Under Restraint:	Yes, mark which restraint devices were used

Type of restraint

Type of Restraint:	Other device, specify
Other device, specify:	flexicuffs

Summary of Incident

Summary of How the Death Occurred: (max. 30,000 characters)

Summary:

Inmate Margarito Carrillo-Gonzalez, reg. no. 85191-380, arrived at RCDC3 on February 14, 2017. He had a history of diabetes type 2. He was diagnosed as a new-onset hypertensive and was started on Lisinopril 10 mg OD. Glyburide 2.5 mg was added to his current Metformin 1000 mg BID. His incarceration was uneventful until 3-27-2017.He presented to sick call at 0900 complaining of upper respiratory complaint with headache, sore throat and body aches. It was reported he had no sputum production, his throat was inflamed, no adenopathy, normal nasal mucosa and bilateral breath sounds were clear to auscultation. He was given Guaifenesin cough syrup 10cc BID for 5 days and instructed to return to clinic if symptoms did not improve.

On 3-29-2017 at 2300, inmate Carrillo-Gonzalez presented to the clinic with shortness of breath and “not feeling well.” His temperature was 101.6, heart rate 141, blood pressure 125/77, and respiration 45. He was monitored in the trauma room throughout the night. At around 0540 on 3-30-2017, inmate Carrillo-Gonzalez was evaluated by the medical director and ordered him transferred to Reeves County Hospital emergency room by van for further evaluation and treatment. He walked to the van with no assistance needed. He was admitted to the hospital for respiratory distress secondary to pneumonia. On 3-30-2017, at 2030, the patient was transferred to Midland Memorial Hospital and admitted with a diagnosis of sepsis, pneumonia and acute hypoxic respiratory failure. He was then placed on a ventilator, hemodialysis and IV antibiotics. His condition was critical. On 4-13-2017, he was extubated and placed on BiPAP at 40% O2 and continued to receive dialysis. On 4-14-2017, he was transferred to a long-term care facility at Midland Memorial West Campus where he continued his dialysis and care. His medical condition improved somewhat until 5-10-2017 when his condition started to deteriorate. On 5-11-2017 inmate Carrillo-Gonzalez went into cardiac arrest. CPR was done and was successfully resuscitated and placed on a ventilator. On 5-12-2017, he was sent to Midland Memorial Hospital for studies of the head/brain. He suffered another cardiac arrest while at the hospital and was pronounced dead by Dr. P.K. Patel at 1354. The preliminary cause of death is cardiopulmonary arrest secondary to tension pneumothorax.
