Attempt gain possession officer's weapon:	No		

Was the deceased under restraint in the time leading up to the death or the events causing the death?

Under Restraint:	No

Summary of Incident

Summary of How the Death Occurred: (max. 30,000 characters)

Summary:

Raul Martinez was arrested and booked into the Williamson County Jail on 02/25/18 for Intoxication Assault, which was later enhanced to Manslaughter under Indictment on 05/25/18. Upon entry into the Williamson County Jail, Mr. Martinez was already experiencing pre existing medical conditions to include Type 2 Diabetes, High Blood Pressure, Low Thyroid, Asthma, and a Benign Prostrate Hypertrophy. During his stay he received appropriate medical treatment, which included 7 (seven) different medications which were previously prescribed and he was housed in general population. Mr. Martinez had also been taken to the hospital on several different occasions throughout his incarceration to include: 02/7/2021 where he was diagnosed with COVID Pneumonia, and returned to the jail on 02/19/2021. On 02/21/2021 Mr. Martinez was admitted back to the the hospital for regression due to low blood oxygen by pulse oximetry and diagnosed with Pulmonary Embolism and returned to the jail on 02/23/2021. On 2/24/2021 Mr. Martinez was returned to the E.R. at the hospital for borderline low pulse oxygen level, and blood was noted in his urine collection bag. After each of these visits to the Hospital, Mr. Martinez was housed in the infirmary upon his return to the jail. On 03/04/2021 Mr. Martinez requested that he be discontinued from prescribed supplemental oxygen and be returned to the general population, and his request was granted on 03/05/2021. On 03/16/2021 Mr. Martinez complained of symptoms related to hypoxia (low blood oxygen), and dizziness but adamantly refused supplemental oxygen against medical advice. On this same date, as Mr. Martinez was being moved back to the infirmary, he lost balance and fell to the ground. Mr. Martinez was then transported to Emergency Room at St. David's Hospital in Georgetown by ambulance where he was subsequently admitted with acute hypoxic respiratory failure. Mr. Martinez required intubation, and mechanical ventilation initiated on 03/19/2021. On

03/31/2021 while still in the intensive care unit at St. David's Georgetown Hospital, Mr. Martinez suffered a heart attack, with functional damage to the heart, and unstable atrial fibrillation, requiring defibrillation. Over the next few days, Mr. Martinez developed sepsis and acute renal failure. According to Mr. Martinez's attending physician Mandeep Mangat, Mr. Martinez was not considered a candidate for renal dialysis or other potentially curative treatments.
On 04/02/2021 through consultation with the Williamson County District Attorneys Office and 277th District Court Judge Stacy Matthews, and in order for Mr. Martinez's family to be able to make decisions on his further medical care, Mr. Martinez was released from custody on personal recognizance bond by Magistrate Edgar Izaguirre . Dr. Mangat, in consultation with Mr. Martinez's family, withdrew further treatment and placed Mr. Martinez on palliative care until he expired on 04/02/2021 at 10:28 pm. No autopsy was ordered by Dr. Mangat, and the certification of death certificate was signed by Dr. Mandeep Mangat
