Medical Cause of Death:

"Based on the case history and autopsy findings, it is my opinion that Dustin Bradley Glen Davidson, a 29-year-old white male, died as the result of gunshot wounds. The isolated gunshot wound of the head is consistent with a self-inflicted wound, and there is no evidence of close ranging firing associated with any of the other gunshot wounds. It remains unclear which gunshot round was ultimately fatal due to the presence of associated hemorrhage/vital reactions to every gunshot wound. Therefore, the manner of death is best classified as Undetermined."
